

Project 2

Project 2

- Project 2 begins today. Download the project pdf file from GAP Week 2 Day 3.
- In the pdf, there are information about the project's specifics and requirements.
- It will be a website project focusing on back-end implementation.
- The application should have both front-end and back-end features. You could also focus on the admin part of the site, with a front-end login.

Project 2 – Task 1

- Write a proposal on this project.
- Your proposal should include:
 - Cover page with your name, course title, project title
 - Proposal page:
 - Introduction
 - Goals and objectives
 - Target audience
 - Key features
 - Technology requirements
